

RESEARCH INTERESTS

- Political communication and deliberation in online environments
- Public opinion, misinformation and conspiracy beliefs (esp. climate change context)
- Psychology of sustainable behavior, especially travel and transportation
- Online opinion dynamics, political polarization, online hate speech

EDUCATION

- PhD Governance** 2020-2023
Hertie School Berlin
Research focus: Online Environments, Deliberation and Democracy. In affiliation with the Hertie School's Data Science Lab, supervised by Prof. Simon Munzert.
- MSc. Social Data Science** 2019-2020
University of Oxford
Interdisciplinary and international graduate program, hosted by the Oxford Internet Institute, at the intersection of social and computational science, with a practical focus on data analysis and programming with Python, Internet research and political science
- MSc. Psychology** 2016-2019
University of Kassel
First major in Social and Environmental Psychology, second major in Clinical Psychology.
Master thesis: Social Drivers of Individual Air Travel
- BSc. Psychology** 2013-2016
University of Kassel
Bachelor thesis in environmental psychology: Outdoor sport and Environmental behavior.
Presentation of thesis-related poster at the AASP Conference in Toronto, 2018

WORK EXPERIENCE

- Teaching Assistant** Fall 2021, Fall 2022
Introduction to Data Science, Hertie School
Teaching two groups of MSc students (Data Science for Public Policy), I revisit the topics presented in the lecture on data collection, data storage and programming and demonstrate practical applications in R.
- Teaching Assistant** Spring 2021, Spring 2022
Statistical Modeling & Causal Inference, Hertie School
Teaching two groups of MSc students (Public Policy), I revisited the topics presented in the lecture on statistical modeling and causal inference and demonstrate practical applications of the methods in R.

Research Consultant

2020-2021

Data Science Lab, Hertie School

I provided help with questions of research design, quantitative measurement, statistical inference and computational tools.

Research Assistant

2017-2019

Center for Environmental Systems Research (CESR)

Within the DFG funded TOMACE project (Trade Offs between Mitigation and Climate Engineering) we analyzed the public attitude towards solar radiation management. I focused on psychological test construction, data analysis and visualization using R. The project was embedded in the SESAM group (Socio-environmental Systems Analysis and Modeling).

Teaching Assistant

2014-2016

University of Kassel, Department of Psychology, Quantitative Methods

Teaching various groups of undergraduate students, I deepened the topics presented in the Quantitative Methods I and II lectures and demonstrated the practical implementation of methods in R across three subsequent semesters.

Research Assistant

2014-2015

University of Kassel, Department of Psychology, Psychology of Memory

Within a project on false memories, I conducted experiments in the laboratory.

CONFERENCE PRESENTATIONS

- EPSA** 2022
European Political Science Association
Topic: Who Engages Where on the Online Public Square? Evidence from Digital Trace Data.
- ICP+** 2021
International Congress of Applied Psychology
Topic: How do climate change skeptics engage with opposing views? Mechanisms of social identity and cognitive dissonance in an online forum.
- MPA** 2021
Annual Meeting of the Midwestern Psychological Association
Topic: How do climate change skeptics engage with opposing views? Invited talk within the 'internet explorer' symposium.

VOLUNTARY ENGAGEMENT

- Elected PhD Representative** 2022
Hertie School, Berlin
I communicate PhD students' interests to academic faculty and leadership, serve in the academic senate and the on the IT committee.
- Seminar Organization** 2019-2020
Network Analysis for Sustainable Development
In collaboration with the German Academic National Foundation (Studienstiftung des Deutschen Volkes), we hold a 4-day Seminar with 85 participants, international speakers, multiple workshops, talks and hands-on projects on the potentials of network analysis in the context of sustainable development (e.g. mobility networks, ecological networks, climate networks and the Sustainable Development Goals of the UN) in Berlin.
- Elected Student Representative** 2018-2019
Graduate Center for Environmental Studies and Teaching (GradZ), University of Kassel
I represented students' interests in the interdisciplinary center for environmental research at the University of Kassel.
- Seminar Organization** 2018-2019
Artificial Intelligence and Society
Funded by the German Academic National Foundation (Studienstiftung des Deutschen Volkes), we organized an interdisciplinary discussion seminar on artificial intelligence with a focus on societal, technical, scientific and ethical perspectives, in collaboration with the Ludwig-Maximilian-University, Munich.

Seminar Organization

2017-2018

Sustainability Scenario Modelling

We organized this seminar for scholarship holders of the German Academic National Foundation (Studienstiftung des Deutschen Volkes) with a sustainability focus. We developed climate models and social scenarios, hosted 9 International speakers, in collaboration with IIASA Vienna and the University of Vienna.

Elected Student Representative

2017-2018

Directorate, Department of Psychology, University of Kassel

I communicated psychology students' interests to academic faculty and discussed strategic developments of the department.

AWARDS AND SCHOLARSHIPS

Doctoral Scholarship

2021-2023

German Academic National Foundation (Studienstiftung des Deutschen Volkes)

Supporting doctoral students from different disciplinary and personal backgrounds that are "united in their particular scientific ability, in their curiosity that extends beyond their own discipline and life world, and in their pronounced sense of social responsibility."

Highly commended thesis

2020

Oxford Internet Institute, University of Oxford

Honoring MSc thesis (Should we talk to climate skeptics?), annual award.

Carl-Friedrich Graumann Award

2018

German Psychological Society (DGPs), Section Environmental Psychology

Honoring BSc thesis (Outdoor Sport and Environmental behavior) as best newcomer scientist work in the field of environmental psychology, biannual award.

Scholarship

2016-2020

German Academic National Foundation (Studienstiftung des Deutschen Volkes)

Supporting "the university education of young people who, on account of their exceptional academic or artistic talents and their personalities, can be expected to make an outstanding contribution to society as a whole."
